

You are invited to attend a Working Group Meeting

The NCDOT invites you to attend your Working Group Meeting for the Business 40 Improvement Project. The individual Working Group meetings are starting in January 2012. The first two meetings are scheduled in January and March, as noted below.

The meetings will be a working-type session, so please be prepared to bring your responses to the questions that were distributed at the Combined Working Group meeting on September 13, 2011. If you do not have a copy of the questions, please visit our website at the following link to print the questions so that you can participate in the discussion.

Please join us for one or both of the Working Group Meetings:

**BRIDGE AND DESIGN WORKING GROUP
THURSDAY, JANUARY 26, 2012**

**Milton Rhodes Center for the Art, Mountcastle Forum
251 N. Spruce Street
6:00 – 7:30 pm**

The purpose of the meeting is to begin looking at corridor themes and discuss design options for the Peters Creek Parkway and the remainder section of the project, such as wall treatments, lighting, railings and more. We will be reviewing specific NCDOT standards as well as the design guidelines proposed by the Creative Corridors Coalition. Please feel free to bring any ideas that you may have.

**COMMUNITY IMPACTS & TRAFFIC WORKING GROUPS
TUESDAY, MARCH 6, 2012**

**14th Street Community Center, 2020 E. 14th Street
6:00 – 8:00 pm**

The purpose of the meeting is to review the responses/results of the community, employee and business surveys relating to the roads the citizens travel most often in the study area, the bridges they cross and other elements related to travel patterns and potential impacts on the community. **Although the traffic analysis will not be completed at the time of the meeting**, it is important to understand the travel patterns to begin thinking about detour routes and other local roadway or operational improvements that may be needed.

**For more information or if you have any questions, please contact:
Michael Penney, NCDOT, 919.707.6006 or mpenney@ncdot.gov**
